FOREWORD BY THE CHAIRMAN OF THE MANAGEMENT BOARD

Dear Shareholders,

With the conclusion of the third quarter of 2016, we can now look back on nine encouraging and eventful months. Our business operations developed well and our hotels delivered satisfactory performance. We also have a number of development projects in the pipeline, all of which are proceeding according to plan. A construction permit was issued in April for our office project near the andel's hotel in Łódź with roughly 26,000 square metres of space. In July, we also received the construction permit for the project in Krakow, where an office building owned by Warimpex will be demolished to make way for a new building with around 12,000 square metres of space. We are working on a second project in Krakow, as well, where plans are currently being drawn up for an office building with around 26,000 square metres of space next to the Chopin Hotel. Construction of a multifunctional building with around 450 parking spaces and roughly 6,000 square metres of office and archive space is progressing at AIRPORTCITY St. Petersburg. A pre-lease was already signed in May, and the building is expected to be completed in the middle of 2017. In Budapest, we are working on the development of a hotel with roughly 170 rooms and 60 apartments.

A look at our figures shows that hotel operations were stable in the first three quarters of 2016. While revenues from hotels contracted by 5 per cent due to a decline in the number of rooms following the sale of hotels in Ekaterinburg, expenses from the operation of hotels also dropped by 9 per cent. By contrast, revenues from the rental of office properties increased from EUR 2.9 million to EUR 6.2 million due to the completion and letting of the Zeppelin office tower in St. Petersburg and of the Erzsébet office building in Budapest. Total revenues grew by 1 per cent to EUR 46.8 million. The gross income from revenues also improved by 14 per cent to EUR 20.5 million.

EBITDA retreated from EUR 16.3 million to EUR 11.1 million. This can be attributed to the fact that gains from the disposal of properties were recognised in the prior-year period. EBIT improved from EUR -13.0 million to EUR 14.6 million. The financial result went from EUR -18.7 million to EUR -6.3 million. All in all, this led to a profit of EUR 6.6 million for the period, a marked improvement over the comparison period (1–9 2015: loss of EUR 31.6 million).

We can also report successes on the transaction front. We sold our 50 per cent stake in the Parkur Tower office property in Warsaw to our joint venture partner in June and in October, we sold the Dioszegi office building in Budapest. After the reporting period, we were also pleased to announce the sale of the four-star angelo by Vienna House hotel in Prague to a private Czech investor. We are still active on the Prague hotel property market with the Diplomat Hotel.

We anticipate that the trend seen to date this year will continue in the fourth quarter, enabling us to close the current financial year positively. Our declared goal for the coming months is to move forward with our ongoing development projects in Poland, Russia, and Hungary. We will also continue to focus on improving the earnings of our hotels and on improving our financing conditions and repaying or refinancing expensive lines of credit.

Franz Jurkowitsch

Assets, Financial Position, and Earnings Situation

Earnings situation

Development of revenues

Revenues in the Hotels segment declined by 5 per cent to EUR 39.6 million in the first nine months of 2016 due to hotel sales in the prior year (angelo Ekaterinburg with 211 rooms, Liner Ekaterinburg with 155 rooms).

Revenues from the rental of office properties (Investment Properties revenues) increased from EUR 2.9 million to EUR 6.2 million as a result of the completion and letting of the Zeppelin office tower in St. Petersburg and of an office tower in Budapest.

Total revenues advanced by 1 per cent to EUR 46.8 million.

Expenses directly attributable to revenues fell from EUR 28.1 million to EUR 26.2 million.

Gains or losses from the disposal of properties

In June 2016, the 50% stake in the owner of the Parkur office tower, Warsaw, was sold to the joint venture partner.

The deal for the sale of both Jupiter office towers in St. Petersburg was closed and the two fully consolidated hotels in Ekaterinburg were sold during the comparison reporting period.

The Dioszegi office building in Budapest and the 100 per cent stake in the angelo hotel in Prague were sold after the reporting date. The result from the disposal of properties will increase by roughly EUR 9.5 million in the fourth quarter as a result.

EBITDA – EBIT

Earnings before interest, taxes, depreciation and amortisation, and gains/losses on the remeasurement of investment properties (EBITDA) decreased from EUR 16.3 million to EUR 11.1 million. This can be attributed to the fact that gains from the disposal of properties in the amount of EUR 2.6 million as well as exchange rate gains were recognised in the prior-year period.

EBIT improved from EUR -13.0 million to EUR 14.6 million.

Financial result

Finance income (including earnings from joint ventures) went from EUR -18.7 million to EUR -6.3 million.

Cash interest expense declined primarily due to the reduction of financial liabilities as well as the refinancing transactions completed in the previous year at lower interest rates. Claims against a Russian subsidiary were reappraised in the third quarter of 2016, resulting in EUR 8.8 million in impairment charges on financial assets.

Segment analysis

The Warimpex Group has defined the business segments of: Hotels, Investment Properties, and Development and Services. The joint ventures that are recognised using the equity method in the consolidated financial statements are included in the segment report using the proportionate consolidation method.

The Hotels segment is comparable with the hotels and/or hotel rooms held by the Group as consolidated entities in the reporting period (with the joint ventures recognised on a proportionate basis). The Investment Properties segment contains the rental revenue from office properties. The Development and Services segment covers development services, activities of the Group parent, and profit contributions from the sale of properties.

Hotels segment*

in EUR '000	1-9/2016	1-9/2015
Revenues for the Group	61,698	75,170
Average number of hotel rooms for the Group	2,787	3,344
Occupancy	69%	69%
RevPar (in EUR)	53.9	54.8
GOP for the Group	24,895	29,710
NOP for the Group	19,956	23,522
NOP/available room in EUR	7,161	7,035

* Including all joint ventures on a proportionate basis

In the reporting period, the average number of rooms falling under Group ownership declined by 17 per cent due to the sale of the angelo and Liner hotels (both in Ekaterinburg) as well as the andel's hotel in Berlin. Revenues decreased by 18 per cent.

Key figures that are typical for the sector are used to manage the hotels. These include GOP (gross operating profit, calculated according to the Uniform System of Accounts for the Lodging Industry) and NOP (net operating profit, which corresponds to the GOP less specific costs of ownership after GOP such as management fees, insurance, land tax, etc.).

Investment Properties segment*

in EUR '000	1-9/2016	1-9/2015
Revenues for the Group	6,591	3,417
Segment EBITDA	4,976	2,372

* Including all joint ventures on a proportionate basis

The revenues and EBITDA of the Investment Properties segment increased due to the completion of the Zeppelin office tower in St. Petersburg and an office tower in Budapest.

Development and Services segment*

in EUR '000	1-9/2016	1-9/2015
Revenues for the Group	1,403	1,949
Gains or losses from the disposal of properties	523	12,825
Segment EBITDA	-4,049	13,421

* Including all joint ventures on a proportionate basis

The results in this segment depend heavily on the sale of real estate holdings (share deals) and properties (asset deals) and are subject to significant year-on-year fluctuation. The result from the disposal of properties includes the final purchase price adjustment from the sale of the InterContinental hotel in Warsaw, which was sold in 2012.

The segment EBITDA in the prior year resulted from the proceeds from the sale of the andel's hotel in Berlin (roughly EUR

10.3 million) and the effect of the deconsolidation of the two hotels in Ekaterinburg (around EUR 3.9 million), offset by the loss on the disposal of the two Jupiter office towers (roughly EUR 1.3 million) resulting from the posting of the transaction costs.

Outlook

The shareholding in the angelo hotel in Prague was sold to the Czech CIMEX Group at the end of October. The result from the disposal of properties will increase by roughly EUR 9.5 million in the fourth quarter as a result.

At the end of November, the bond maturing in 03/17 in the amount of PLN 15 million (roughly EUR 3.4 million) was redeemed early.

The following development projects are currently under construction or development:

- AIRPORTCITY, St. Petersburg, multifunctional building (under construction)
- Ogradowa office building with roughly 26,000 square metres of space, Łódź
- Mogilska office building with roughly 12,000 square metres of space, Krakow
- Chopin office building with roughly 26,000 square metres of space, Krakow
- Hotel with roughly 170 rooms and around 60 apartments, Budapest

Hotel operations continued to develop stably in the first nine months of 2016, and revenues from investment properties increased due to the new leases signed in the second half of 2015. We expect that this trend will continue.

The declared goal for 2016 is to move forward with the current development projects in Poland and Russia. We are also working on a number of further transactions. At the same time, we are constantly working to improve our financing terms and to repay or refinance expensive lines of credit, and will continue to advance the diversification of our portfolio.

We have compiled this report and checked the data with the greatest possible care.
Nonetheless, rounding, typographical, or printing errors cannot be ruled out.
The summation of rounded amounts and percentages may result in rounding differences.
Statements referring to people are intended to be gender-neutral.
This report was prepared in German, English, and Polish.
In cases of doubt, the German version is authoritative.
